

Are you looking for a job that fits your busy college schedule? This is the perfect role for you!

We need German students to evaluate and validate mapping data, like locations, business names, opening hours, distances for navigation and more!

A high level of accuracy is required for this role as your analysis will have real world impact on mapping data shown to millions of people around the world.

Over time, successful candidates will be presented with new learning opportunities to develop their skills and progress on to more varied and intricate projects.

This is a part time (max 20hrs) highly flexible role where you'll set your own hours and work to your own schedule.

Benefits

- Flexible working hours – work any time from home or college!
- Earn extra money at a competitive hourly rate.
- Work from home and skip the long commute!
- Develop and apply your research skills in a real world environment.

Basic Requirements

- Fluent in German and English
- Living in Germany for a minimum of 5 consecutive years.
- Willing to work a minimum of 10 hours per week (pending project availability)
- Good working knowledge of search engines, map applications and familiarity with social media platforms.
- Strong ability to learn, understand and apply multiple sets of different instructions.
- A passing grade in an online open-book assessment provided by us.
