

## **Corning Optical Communications GmbH & Co. KG**

Corning is vital to progress – in the industries we help shape and in the world we share. We invent life-changing technologies using materials science. Our scientific and manufacturing expertise, boundless curiosity, and commitment to purposeful invention place us at the center of the way the world interacts, works, learns, and lives. Our sustained investment in research, development, and invention means we're always ready to solve the toughest challenges alongside our customers. Our Optical Communications segment has recently evolved from being a manufacturer of optical fiber and cable, hardware and equipment to being a comprehensive provider of industry-leading optical solutions across the broader communications industry. This segment is classified into two main product groupings – carrier network and enterprise network. The carrier network product group consists primarily of products and solutions for optical-based communications infrastructure for services such as video, data and voice communications. The enterprise network product group consists primarily of optical-based communication networks sold to businesses, governments and individuals for their own use.

### **BRiTE Rotational Program Participant (m/f/d)**

City: Berlin; Starting Date: 01/06/25; Duration: 6 months; Remuneration: N/A

#### **Working field**

##### Role Purpose

The BRiTE (Broad. Relevant. Tangible. Experience.) program provides new graduates with the unique opportunity to gain hands-on, broad commercial experience by completing four rotations across various business functions. Each rotation is intentionally designed and includes commercial project work, experiential learning, mentoring relationships and leadership development opportunities in the following areas:

1. Sales (Inside Sales and Field Sales)
2. Marketing and Market Development
3. Engineering & Customer Experience
4. Product Line Management

Participants will gain valuable experience working alongside mentors on real-life projects, develop critical skills to jump-start their careers, and build a network by collaborating with company leaders and teams across the organization.

#### Additional details:

1. Start date: June 01, 2025
2. 6 months limited contract with the possibility to be made permanent after completion

of the program

3. Fluent English and German language skills, other languages are a plus

4. Possession of a valid work and residency permit for Germany, which allows an immediate start
