

Renewables Academy (RENAC) AG

At the Renewables Academy (RENAC) AG, along with our subsidiary RENAC energy & climate gGmbH, we pride ourselves on being a leading international educational provider specializing in renewable energy technologies, energy efficiency, and applications for green hydrogen and Power-to-X. Our diverse offerings include both online and in-person training sessions, available domestically and internationally. We are committed to establishing local training structures, collaborating with universities to implement degree programs, and organizing numerous events under the Energy Export Initiative. We have successfully trained over 30,000 participants from the public and private sectors, as well as the financial sector, hailing from more than 160 countries. With our headquarters situated in the heart of Berlin Mitte, our team comprises over 65 dedicated permanent employees. We invite you to become a part of our dynamic team, and we look forward to welcoming you aboard!

Student Assistant for Online Course Development

City: Berlin; Starting Date: At the earliest possible; Remuneration: 14-17€/ h; Closing date: 30/11/24

Working field

Media Pedagogy or Media Design

Requirements

Your tasks and responsibilities:

- 1) Assist our online department in developing e-learning course materials and graphics using authoring tools such as KnowledgeWorker and Canva.
- 2) Help manage our e-learning platform (Moodle), including user management, creating training programs, and maintaining the question bank.
- 3) Provide general support to the online department with daily operations.

What makes you a great fit:

- Currently enrolled at a university in Berlin with studies continuing at least until autumn 2025.
- Pursuing a degree in Media Design, Media Pedagogy, or a related field, and passionate about transforming educational experiences.
- Possess a foundational experience in crafting engaging didactic materials for online courses and experience with Moodle or similar platforms is a plus.
- Fluent in English, Spanish, and French, with additional language skills considered a bonus.

What We Offer

- Become part of an international, supportive work environment with flexible hours tailored to your university schedule, and enjoy complimentary coffee, tea, and juice to keep you energized throughout the day.
- Engage in interesting work tasks with opportunities to learn and grow, with the chance to secure full-time employment with our company after graduation from university.
- Join an international team, passionate about renewable energy, energy efficiency, and sustainable development.

Application

We are looking forward to receiving your application, including your cover letter. Please send these documents via email to: Ms. Yuliia Kosinova (kosinova@renac.de)
