

# Technische Universität Dresden - Faculty of Chemistry and Food Chemistry, Chair of Molecular Functional Materials offers within the **Collaborative Research Center 1415**

**TECHNISCHE** TUD Dresden University of Technology, as a University of Excellence, is one of the leading and most dynamic research institutions in the country. For TUD diversity is an essential feature and a quality criterion of an excellent

university. Accordingly, we welcome all applicants who would like to commit themselves, their achievements and productivity to the success of the whole institution.

# Research Associate / PhD Student (m/f/x)

At the Faculty of Chemistry and Food Chemistry, the Chair of Molecular Functional Materials offers within the Collaborative Research Center 1415 (CRC 1415, Chemistry of Synthetic Two-Dimensional Materials) a position as Research Associate / PhD Student (m/f/x) (subject to personal qualification employees are remunerated according to salary group E 13 TV-L) starting May 1, 2025. The position comprises 50% of the full-time weekly hours and is limited until June 30, 2028 within the CRC 1415 project "Revealing Ion Transport and Storage Properties of 2D Materials" (B10). The period of employment is governed by the Fixed Term Research Contracts Act (Wissenschaftszeitvertragsgesetz -WissZeitVG). The position aims at obtaining further academic qualification (usually PhD).

City: Dresden; Starting date (earliest): 01/05/25; Duration: limited until June 30, 2028; Remuneration: subject to personal qualification employees are remunerated according to salary group E 13 TV-L; Reference number: w25-075; Closing date: 01/04/25

## Working field

Ion transport investigation of 2D polymers and other 2D materials; ion storage properties of 2D materials in aqueous battery systems; mechanism exploration related to the ion transport/storage fundamentals of 2D materials; organizational tasks within the DFG project.

### Requirements

university degree (M.Sc. or equivalent) in chemistry, polymer chemistry, material sciences, or similar; basic understanding of physical chemistry, electrochemistry and energy storage; very good interpersonal and communication skills; in particular, the ability to effectively work in collaborative research efforts; an independent, target- and solution-driven work attitude; inter- and multidisciplinary thinking; strong motivation; fluency in English - written and oral.

### **Application**

TUD strives to employ more women in academia and research. We therefore expressly encourage women to apply. The university is a certified family-friendly university. We welcome applications from candidates with disabilities. If multiple candidates prove to be equally qualified, those with disabilities or with equivalent status pursuant to the German Social Code IX (SGB IX) will receive priority for employment.

Please submit your detailed application (in English only) including motivation letter, CV, copy of degree certificates and quoting the reference "w25-075" by April 1, 2025 (stamped arrival date of the university central mail service or the time stamp on the email server of TUD applies), preferably via the TUD SecureMail Portal <a href="https://securemail.tu-dresden.de">https://securemail.tu-dresden.de</a> by sending it as a single pdf file to <a href="minghao.yu@tu-dresden.de">minghao.yu@tu-dresden.de</a> or to: TU Dresden, Fakultät Chemie und Lebensmittelchemie, Professur für Molekulare Funktionsmaterialien, Herrn Dr. Minghao Yu, Helmholtzstr. 10, 01069 Dresden, Germany. Please submit copies only, as your application will not be returned to you. Expenses incurred in attending interviews cannot be reimbursed.
